Fertikote: Coated, controlled-release fertilizer for container nursery and pot plants with essential trace elements. Safe polymer coating ensures uninterrupted nutrient release over 6 months.

Added magnesium enhances photosynthesis and chlorophyll formation. Integrated trace elements in NPK promote optimal root development, uniform plant growth, and boost natural stress resistance.

Please contact your sales representative for specific product and application advice.

Store in unopened original packaging in a dry place protected from frost, heat or direct sunlight. Once opened reseal tightly and keep in a dry place.
