

Fertikote®

Controlled Release Fertilizer

08-05-31

Controlled release fertilizer with high K content

Specifications

Average granule	3,2 mm
Longevity in months at 21°C	4
Color	White/Grey/Brown
Coating material	degradable polymer coating
Coated N of total N	45%
Coated P₂O₅ of total P₂O₅	45%
Coated K₂O of total K₂O	45%
Packaging 25 kg PE bag	500kg BB PP

Fertikote: is a coated controlled release fertilizer with a full package of essential trace elements specifically tuned to the nutrient requirements of your crops.

Our reliable polymer coating is safe to roots and ensures uninterrupted nutrient release throughout the period of 4 months. The high potassium encourages healthy growth and improves plant quality and color. Analysis

Please contact your sales representative for specific product and application advice.

Store in unopened original packaging in a dry place protected from frost, heat or direct sunlight. Once opened reseal tightly and keep in a dry place.

Caution: Harmful if swallowed. Do not inhale. Keep out of reach of children.
